

## **Achievement Standards**

The Hillary Outdoors team are happy to design a programme to assist student learning towards an achievement standard or assist teachers in gathering assessment evidence.

As a PTE we cannot assess or report Achievement Standards but we can design a programme to assist you in doing so. Each school is asked to provide its own assessment materials; it is helpful for us to view these before your programme begins so we can work to integrate them into the weeks learning.

Popular standards include:

<b>Level 1</b>	
90966	Demonstrate interpersonal skills in a group and explain how these skills impact on others
90968	Demonstrate, and show understanding of, responsible behaviour for safety during outdoor education activities
90970	Demonstrate self-management strategies and describe the effects on participation in physical activity
<b>Level 2</b>	
91332	Evaluate leadership strategies that contribute to the effective functioning of a group
91333	Analyse the application of risk management strategies to a challenging outdoor activity
91334	Consistently demonstrate social responsibility through applying a social responsibility model in physical activity
91336	Analyse group processes in physical activity
<b>Level 3</b>	
91504	Analyse issues in safety management for outdoor activity to devise safety management strategies
91505	Examine contemporary leadership principles applied in physical activity contexts

We can also assist in the delivery of standards in Mathematics, Science, Geography and English
